How Long — Charlie Puth

```
Am          G
  I'll admit, I was wrong
F              Em
  What else can I say, girl?
Am                G              F       Em
Can't you blame my head and not my heart?
Am        G         F                        Em
  I was drunk, I was gone, that don't make it right
      Am           G          F         Em
But I promise there were no feelings involved
```

[Pre-Chorus]
```
Am              G              F
She said, boy, tell me honestly
                             Em
Was it real or just for show? Yeah
Am            G         F
She said, save your apologies
                       Em
Baby, I just gotta know
```

[Chorus]
```
    Am       G        F     Em
How long has this been going on?
            Am                  G
You've been creeping 'round on me
             F            Em
While you're calling me baby
    Am       G        F     Em
How long has this been going on?
             Am              G
You've been acting so shady
          F             Em
I've been feeling it lately, baby
Am   G    F   Em    Am   G    F   Em
Oooo      ooo-oo,  Oooo       ooo-oo

Am           G
  I'll admit, it's my fault
F               Em
  But you gotta believe me
Am           G                F     Em
When I say it only happened once
Am        G         F                  Em
  I tried and I tried, but you'll never see that
Am           G          F     Em
You're the only one I wanna love, ooh, yeah
```
